

TIPRM: Our Charter

The Institute of Pest Risk Management will -

1. Connect, support and engage with pest management technicians and others involved in the work of pest management to promote knowledge, education and critical feedback.
2. Ensure that the information we provide is soundly based, of the highest quality, understandable and informative.
3. Ensure the integrity of our work by using leading technicians, teachers and experts to write, review and provide our resources.
4. Promote responsible service according to our Statement on the Rights of Others.
5. Continue to provide resources to pest management technicians and others involved in the work of pest management.
6. Continue to work with enthusiasm, to instil a broad sense of community for pest management technicians and others involved in the work of pest management.
7. Continue to build a broad collaboration with pest management technicians and others involved in the work of pest management.
8. Work to ensure we all remain relevant, respected and fundamentally aligned to key principles.
